

# Executive Summary: CE-VMS Platform

**Staffing process** for contingent workers (temps, contractors, freelancers, SOW's, ...) takes precious time, energy and money... We offer an integrated modular Vendor Management System tool that helps you to optimize and facilitate the search, source, contract and management of these workers.

## What's in it for you :

- **TCO** (hard/soft savings) optimization
- Guarantee of **sourcing** your projects
- Qualitative **fill-in rate** optimization via teared suppliers
- Spend, supplier and external workers full control via improved and automated neutral **reporting**
- Fast, transparent and documented temp **process** through organization
- Compliance, regulations and **risks** under control (Dimona, ...)
- **BI reporting** available (platform also provide B.I. reporting)
- Avoids Maverick (back-door) spend
- Straight to the point implementation model by **Belgian team**.
